We compensate for emissions generated in the production of our products with the purchase of carbon credits. This credit is used to support a selected ecological project focused on wind or water power, forestry, etc. These projects also support vulnerable communities in poor parts of the world and teach them about sustainable economy; this minimises negative impacts on the environment, and your diary or notebook receives a Product footprint CO₂ neutral certificate.

BINDING

HARDCOVER

The most common binding for diaries. The sewn bindings with hardcovers ensure the diary's durability throughout a year of use.

TWIN WIRE

Wire-o or spiral binding. The covers can be made from paper or cardboard with a laminated finish.

SEWN SOFTCOVER

Sewn binding with soft cover. The sewn book block ensures a good opening of the diary or notebook and increases the comfort of writing.

SADDLE STITCHING

Saddle stitching is suitable for monthly calendars or notebooks with a small number of pages.

Endpapers are an important connecting element between the block and the covers. They do not always have to be white.

By using coloured paper, you can enliven your diary or notebook and enhance the overall appeal of the product.

You can utilise the area of the endpapers for advertising purposes by placing a motto or printing your own graphics that complement the design of the diary or notebook.

The back endpaper can include a pocket for business cards or small documents, increasing the uniqueness and practicality of your diary.

6

IMPORTANT INFORMATION:

- Minimum total print run of book blocks for standardized formats and paper weights: 300 pcs
- Cover production: at least 300 pcs per design
- Printing and sewn binding, including endpapers, on one production line
- Casing-in of sewn book blocks in a softcover or hardcover

OUR TIP for smaller print runs: In standardized formats and paper weights, the graphics of the inner pages may differ from piece to piece.
